

Voilàp holding profile

Founded in 1970, the Cifin Group – now Voilàp holding – is a world leader in the design and production of machining systems for aluminium, PVC, steel and glass profiles. The Group has a total workforce of **1,400 people** and in 2018 will achieve a total turnover of more than **300 million euros**. The Group has 58 companies and operates worldwide with the brands **camäleon, elumatec, elusoft, emmegi, emmegi-soft, imecon, keraglass, tekna and voilàp digital**, with **7 production plants** (4 in Italy, 1 in Germany, 1 in Bosnia and Herzegovina and 1 in China). It has an extensive network of **40 commercial branches** and a global presence in more than **60 countries**.

In 2014 Voilàp holding acquired the majority of **keraglass industries**, a leader in the industry of glass processing plants, and **tekna**, which has been competing in the market for aluminium extrusion machines for over 50 years. Also in 2014 **voilàp digital** was established, a digital company offering services to the industrial sector for the optimisation of offline-online business processes.

In 2016 Voilàp holding took over the **elumatec** group, which since 1928 has been a point of reference in the design, production and marketing of machines, lines and plants for machining aluminium and PVC profiles.

In 2018 Voilàp holding acquired the majority of **imecon engineering**, a leading Italian company specialised in the design, prototyping and production of turnkey technological solutions in the field of Digital Signage.
